ABOUT ME

I have been working as a system analyst for the last three years developing web pages and web applications using TypeScript, JavaScript, CSS3, HTML5, SASS, ReactJS and Bootstrap.

Besides, I've been working with NodeJS, .NET, ExpressJS and ASP.NET developing web services, debugging code, building API REST from scratch and maintaining it also providing IT support to companies like Naturgy BAN S.A., MetroGas and Gasnor.

What's more, I have knowledge of GNU/Linux distributions (UNRAID, ProxMox, Debian 10 and Debian 11) for server maintenance and management.
